

VOL. 1.

BASSANO, ALTA., FRIDAY, JULY 22, 1910.

NO. 17

UNNEEDED ADVICE TO SCHOOL BOARD

An Anonymous Correspondent who Says the School Directors Should Postpone the Erection of the Big School—Misstatements Refuted.

The Medicine Hat News, of July 14, has some correspondence from this city in one paragraph of which he advises the Bassano school board as follows:

"To go slow in regard to the erection of a \$14,000 school house, which they are talking about putting up. Times here are somewhat slow and if they add this much to our already heavy debt it will raise the taxes so high that it will have a tendency to keep the town back. We have ample accommodation for all the scholars at present. There is some talk of calling a meeting of the ratepayers to discuss the matter and see if it is not advisable to postpone so large an expenditure for at least another year."

In the first place the school trustees never contemplated the erection of a schoolhouse that would cost \$14,000. What they have set their hearts on is a temple of learning that will cost \$15,000. They feel that a place of the size and importance of Bassano should have a building of this kind as large a site as possible and have a sufficient capacity to accommodate the school children of today and those that will be ready for school during the next few years. The matter of raising the subscription for such a building will be submitted to a vote of the ratepayers in the Bassano school district No. 248, and the majority will decide whether or not the debt shall be contracted. There are sixteen sections in the district and an indebtedness of a few thousand dollars would scarcely be felt. The bonds are to run for twenty years and their payment together with interest which is usually small on school bonds would fall lightly on the taxpayers.

Recently during the summer months a number of the firms allied to the Medicine Hat News man, who were all cheerful and optimistic and stated that business was good with them; that they had nothing to complain of. The tone of their remarks is intended to be detrimental to the town and it is thought the writer cannot be the owner of a lot or two and is very much alarmed that he might have to pay six bits or a dollar a year more to school taxes if the majority of the ratepayers decide that they want a \$15,000 schoolhouse.

As the large benevolent spoken of in the item referred to the school

district owes less than \$1,000, and this was incurred in building the present school building, in paying for the supplies and for two months' salary for the principal of the school.

Dr. Dawson, the principal of the school, during the period it was in operation, stated that he was compelled to refuse admission to a child during the first week that the school was run on account of a lack of desks and of room in which to house them. It is true, however, that the attendance fell off during the last few weeks of the school session owing to sickness among the pupils, caused by warm weather and principally among the boys who had come from distant places and who were not yet acclimated.

With these few inaccuracies, however, the item is correct.

As to the necessity for a larger schoolhouse there is not the slightest doubt in the mind of a single public spirited citizen here concerning it. Such a building will increase the population and so that it will have the effect of spreading the paying of taxes among a larger number. There is no doubt that the lack of school facilities here, before they were partially provided for, kept a number of families away from here. Good school facilities are considered essential in modern communities, and the place that fails to provide them is generally destined in the race for impotence. Bassano must not be allowed to fall behind because of a failure to provide the right means for educating the rising generation that it can afford.

There have been some misstatements as to the debt of Bassano, and inquiry of members of the council showed that the only indebtedness that it has is a debt of \$1,500, due to bank and the price of the River Road fire extinguisher which was purchased sometime since in Brandon, but which had not yet been delivered. This latter item while an obligation, is not yet an indebtedness. The man due for the engine is \$400. The taxes for the present year will all have been paid in by December 1st and will be sufficient to more than pay both these items. So the so-called heavy indebtedness of the city are of such a character that they will all be met before the end of the present year. This is a statement that the council may well point to with pride.

DEATH OF MRS. LEONARD TOOK POISON WHILE SUFFERING FROM NERVOUS DEPRESSION

Mrs. Maude Leonard died at 8 o'clock this (Friday) morning from the effects of poison taken at 6 o'clock on the previous evening, while suffering from an acute attack of nervous depression. Mrs. Leonard has been subject to nervous prostration for the past three years, and during the past six months it has assumed a more violent phase which was intensified during the past few weeks. Her condition was such that she was unable to get up for months past that her husband, C. Leonard, was compelled to devote about all of his time to looking after her, as during the more severe attacks she was subject to hallucinations. It was during Mr. Leonard's temporary absence from home on Friday that she swallowed three tablets of corrosive sublimate, containing about 75 grains, sufficient to kill a strong man.

When Mr. Leonard returned he found his wife suffering from the effects of his poisoning. Dr. Harris was quickly summoned and he administered antidotes and did everything that medical skill could suggest to save her life, but despite all his efforts she was relieved of the pains produced by the poison, at 5 o'clock on Friday morning.

Mr. Leonard has a family of four children to rear, his wife departing this morning at the age of 41 and the youngest an infant of eight months. The death of the children is a great misfortune for the family.

Mrs. Leonard has a host of friends in Alberta, where she has resided for many years, who will deeply regret her death. She was married on May 10, 1878, and seven years since she was a native of England and was 77 years old.

FORBIDDEN BY LAW.

Liquor Must Not Be Carried on the Blackfoot Reserve.

The law strictly prohibits the taking of liquor on Indian reserves under a penalty of three months imprisonment or the alternative of a fine of \$20. The law also gives the police the privilege of searching any and all persons on an Indian reservation for the purpose of ascertaining if they have liquor in their possession. A few of those who visit the Bow River from this city carry with them as a part of their land baggage a few bottles of wine in their trunks, and when they are caught they are prosecuted. It is a violation of the law to carry liquor on the Blackfoot Reserve, and a recent case is being tried for an offence of this character. The Northwest Mounted Police, it is learned on good authority, have determined that the law in this regard shall not in the future be broken, if they can help it. People hereafter found on the reservation with liquor in their possession will therefore, be arrested, and if liquor is found in their possession they will be prosecuted. It is said that arrests would have been made sooner, but it was desired to give the public warning. Now that this has been done it will be difficult to set up a plea of ignorance of the law.

HAYMAKERS ARE BUSY A DOZEN OUTFITS PUTTING UP BAY IN SECTION SOUTH OF TOWN.

A dozen gangs of haymakers are busily engaged in mowing and putting up hay. The grass in the Bow River valley is fairly long and makes good hay. It seems certain that they will secure and command a good price during the winter and spring, and hence there is more than ordinary activity displayed in the direction of the putting up of hay. The bassanos are delivering considerable hay from the Blackfoot Reserve daily in their teams. It is said that the agents on the reservation found that the Indians were making the hay for less than half price, and considering that it was too cheap he directed them to demand a higher price and they are now receiving the new price for their hay.

HAS SOLD ITS LAND CANADIAN PACIFIC I. C. Co. Closes Up Its Local Land Agency

Charles J. McConnell, who has been in charge of the local agency of the Canadian Pacific Irrigation Colonization Co. since January 1st, has been transferred to the main office of the company at Calgary. Mr. McConnell during his stay here has made a great many friends, as he is of a genial and kind disposition and most accommodating; at the same time he has always been careful, attentive and energetic in looking after the affairs of the company. His departure from here will be much regretted.

Mr. McConnell has been looking after the development of the Canadian Pacific Irrigation and Colonization Co. in this vicinity for the past three or four months, and who has made his headquarters here, has been transferred to Brooks. Mr. McConnell is also a genial and well-liked individual, whose departure will be regretted.

The agency here will be closed till next spring. The agencies at Tilley and Strathmore have also been closed. The reason the Bassano agency has been temporarily put out of commission is because about all of the desirable land in this vicinity owned by the company has been sold and the original land will not be disposed of till next spring, when the office will be reopened.

Political Parties

The election for the purpose of all parties of the R. H. Bill, the members of this district, although not definitely fixed, it is thought will take place about the latter end of August.

"It is expected" (says the Glenbow Call) "that the Liberal nominating convention will be held in Glenbow this time and it is considered to be the centre of the riding, and many objects in being held in Calgary as formerly, as that city is not included in this constituency. It is also said an effort will be made to hold the Conservative convention here."

SMALL RAINFALL ELSEWHERE

Mr. Dauterive Says That There Has Been a Shortage of Rain all Along the Line From New York to Bassano. Farmers Are Complaining.

J. L. Dauterive, of Antilla, Cuba, is here on a visit to H. W. Pettin, of the firm of Pettin & Field. Mr. Dauterive has large plantations, interests in Cuba, and also has investments in Alberta and in Washington, which he came from Cuba to look after. In a chat with Mr. Dauterive he stated that Alberta is not the only place where there is a partial drought. He came from New York to Bassano, via Minneapolis, away back in May, and they were complaining about the dry weather and stating that there would be only about half a crop. The farms in Illinois, Iowa, Minnesota and North Dakota and Saskatchewan looked dry and parched and the farmers getting on and off the train at different points in the state and province mentioned were complaining about the lack of rain and all declared that the crop of cereals would be small and in some places would amount to nil. At Alberta, he said, is not alone so far as a shortage of rain is concerned.

Cuba, Mr. Dauterive declared, is prospering and one reason for this is

the increased demand for sugar. The acreage devoted to the growth of sugar cane is increasing. There was a fall in the sugar beet crop in Europe last year and England is importing sugar from Cuba, which is something of a novelty. In 1909, the production of sugar in Cuba was 1,200,000 tons of sugar, worth between \$125,000,000 to \$150,000,000 and is exported by the planters that the production of sugar in 1910, reach 2,000,000 tons a year.

The tobacco crop this year is not large as usual, only being about 75 per cent. as large as it was the previous year.

Railroad building is active in Cuba at present. Sir C. P. R. is formerly at the head of the C. P. R. in Cuba, between the north and south portions, and the section which his railway reaches he is being very rapidly developed. He is a wonderful man and the one who is doing much of which he is the head, has the largest mileage of railway on the island.

AN ENJOYABLE OUTING

A Picnic Party That Had a Good Time on the Banks of the Bow River. Mr. W. Pettin and wife, F. Dyer and wife, Richard Pettin and wife, Mrs. W. Pettin and son, and Mr. and Mrs. Wright and wife, and the McConnells, the latter being the Canadian Pacific Irrigation Colonization and Cattle Company, formed a picnic party that visited the Bow river on Sunday. They left early in the morning and went to Glenbow and down along the river stream till they reached the Bow river on Sunday. They found a large grove of trees shaded, graceful shade, and here the members passed the day most pleasantly. The lunch baskets were brought along well filled and at 1 o'clock the picnic was commenced. The gentlemen of the party were in the water and the ladies were on the bank. The picnic was most refreshing on account of the nearness of the coolness of the day. The party returned in the cool of the evening.

WORK ON BOW RIVER DAM.

As Son as Bridge is Finished a Large Force Will Be Employed. It is thought that the contractors on the Bow River dam was in town from Calgary on Saturday last and while here made his headquarters at the Alberta Hotel. He said that as soon as all of the material for the bridge across the Bow river is assembled it will take only about three weeks to finish it. He expected that work on the bridge would be commenced within a few days when he was here. When the bridge is finished the work on the dam will start in earnest with a good-sized force of men and will be kept up continuously till it is well on at 40 by 60 foot warehouse on the south side of the railway track which is fast approaching completion. It is thought that the dam will be finished in about twenty days.

INSPECTING THE RAILWAY

A Price, general superintendent with headquarters at Calgary and J. D. Taylor, superintendent of this district of the Canadian Pacific Railway, stationed at Medicine Hat, passed through the city on Tuesday on route to inspect the work on the private car. On Wednesday Mr. Taylor returned to Medicine Hat. They were on a tour of inspection.

VALUABLE ORGANIZATION

LADIES OF ANGLICAN CHURCH FORM A BRANCH OF WOMEN'S AUXILIARY.

A meeting was held in Prince's hall on Wednesday afternoon at 3:30 for the purpose of forming a branch of the Women's Auxiliary of the Church of England. There was a good attendance and much enthusiasm was displayed. The following officers were elected: President, Mrs. W. Leveridge; secretary, Mrs. C. H. Perce; three secretaries, Mrs. H. S. Johnson. The society adjourned to meet at the residence of Mrs. Herbert B. Johnson at 3:30 on Wednesday afternoon.

WILL LOCATE IN IRRICANA

Meers, McIntosh and Kennedy Will
Remove to Business Premises
E. McIntosh, of Bassano, and D. C. Kennedy, of Irricana, have formed a partnership and will open a general merchandise store at Irricana, Alberta, on August 1st. Irricana promises to be one of the sharpest hot towns in Central Alberta. It is located 80 miles northeast of Calgary on the C. P. R. It is a junction point, having a branch running from Langdon. A branch line is also being extended from Irricana to tap the C. P. R. main line at Kinsley. There is also to be a branch extending from Irricana to Crowfoot on the Calgary-Irricana branch of the C. P. R. The line from Langdon to Lacombe, which is at present called the Langdon-Arma branch, is to be extended to Lacombe, which is only a short distance from Irricana. The Grand Trunk Pacific enters Irricana on its way to Calgary. The Canadian Northern also has its line surveyed through Irricana on its way to Calgary. The C. P. R. is at present erecting a large passenger and freight station and preparing its general facilities there. The Grand Trunk Pacific will also erect a depot which will provide yard facilities there within the next few months.

Meers, McIntosh and Kennedy purchased several building lots at Irricana a few months since and already have doubled in value. The building which they are erecting has ground dimensions of 24 by 30 feet and is erected on what is considered the best business location in the place, being only 100 yards from the railway station and on the opposite side of the street from the leading hotel. It is to be of two stories and is to have a plate glass front. There will be eight large rooms on the second floor suitable for living rooms and offices. Mr. Kennedy is a son of James Kennedy, of the contracting firm of Kennedy & McDonald, operating on the western division of the Grand Trunk Pacific railway. Mr. McIntosh is an expert

general merchant and formerly ran stores of his own in Nova Scotia. For several months past he has been acting as clerk in the store of Purcell & O'Brien in this place.

SCORE ONE TO NIL

Gleichen Defeated the Bassano Football Exponents After a Hard Game

The Bassano football team played a game of football at Gleichen, with the Gleichen team on Monday evening, commencing at 7 o'clock, and Bassano was defeated by a score of one to nil. The only goal was scored out of an interesting game by Gleichen in front of Bassano's goal after three minutes of play. The balance of the game was strenuously fought by both teams in an endeavor to score, but without success. The struggle was carried on principally in Gleichen's territory, but the Bassano boys were poor shooters, and although they had numerous opportunities they failed to get the ball between the posts. Dr. Hughes, left back for the Gleichen team, was easily the star of his team. Steve in goal and Hynd, left back for Bassano, proved themselves the best players on the Bassano team. Following is the lineup of the Bassano team:—Back, goal: J. Gordon, right back: Hynd, left back: F. C. Owen, right half: H. H. Owen, outside left: Boyd, inside left: W. C. Robertson (captain) centre forward: J. C. Robertson, inside right: Hughie Canham, outside right.

Synopses of Canadian Northwest Land

Any person who is the sole head of a family, or any male over 18 years old may homestead a quarter section (160 acres, more or less) of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicants must appear in person at the Dominion Lands Agency or Sub-Agency for the district. Entry by proxy may be made at any agency, on certain conditions, by father, mother, son, daughter, brother or sister of intending homesteader.

DUTIES--Six months' residence on the land, cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres solely owned and occupied by him or his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter section alongside his homestead. Price, \$10.00 per acre. DUTIES--Must reside six months in each of six years from date of homestead entry (including the time required to acquire the patent) cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may take a purchased homestead in certain districts. Price, \$10.00 per acre. DUTIES--Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$300.

W. W. COBB, Deputy of the Minister of the Interior N.B.--Unauthorized publication of this advertisement will not be paid for.

Around Town

born last week to the wife of Charles
Robertson, of Crowfoot, N. Man.

M. L. Goldworthy, of Gleichen, was
a guest at the Alberta on Tuesday.

J. A. Wilson, the popular butcher,
made a business trip to Gleichen this
week.

J. C. Kelly, of the Alberta staff, re-
turned on Sunday from a week's stay
in Calgary.

O. C. Williams arrived here from
Sturgeon on Tuesday after a long
journey.

Henry Smith arrived here on Sun-
day from the old Mexico ranch for the
purpose of spending a few days.

Russell Brown arrived in town on
Wednesday from his farm north of the
Red Deer river near Pellythorn.

R. Graham, of Glenview, Ont., is
here on a visit to his son, James
Graham, who is operating a meat mar-
ket at Brooks.

C. Harris and wife returned on Wed-
nesday from Nanton, where they had
been visiting Mr. Harris' parents for
two days.

Lewis Pather, manager of the
Anchor Fire Insurance Co. at Calgary,
arrived in town on Monday and spent
a few days looking into insurance
matters.

G. K. Allan, teller of the Bank of
Commerce, returned a few days since
from a week's vacation, which he
spent having an enjoyable time in
land and Calgary.

Fred Wheatleigh is shifting the re-
turn in his bowling alley from the
centre to the side, which will have
the effect of making a more con-
sistent approach.

I. Melius and F. N. Nestor have
formed a co-partnership for the pur-
pose of conducting a blacksmithing
business. Both are excellent me-
chanics.

The services at the Methodist church
are now under the direction of Rev. J.
R. Barker, who lives at Brooks. Ser-
vices, every Sunday morning at 11
o'clock.

Mrs. Walter Kelly and Mrs. A. L.
Stoddard, her mother, left here on
Monday for Blackfoot, Idaho, where
they will remain for the next two
months.

The Riverside Lumber company has
just received a carload of stove-
wood, consisting of stumps from the saw-
mill at New Michin. It is admirably
suited to making quick fires at this
season of the year.

George Willard left here on Wednes-
day for High River, where he is
employed to drive. Mr. Willard has
a place 50 miles north of here and was
called to High River to look after his
interests there.

The summer heat has developed
some unsavory odors which shows the
necessity for a further cleaning up
of rubbish. A walk through the alleys
way between Third and Fourth streets
and First and Second avenues shows
that there is considerable rubbish,
which should be removed and there are
other places where it is about as bad.
The proper authorities should insist
on a general cleaning up before there
is an outbreak of fever at some other
disorder caused by the presence of
rubbish.

**EXCURSION
TO
Experimental Farm, Lacombe**

Under direction of the Honorable Duggan Marshall, Minister of Agriculture, excursions
will be run to the Lacombe Experimental Farm on a T. V. P.

Train will leave Calgary . . . 6:10 a.m., arriving at Lacombe 11:15 a.m.

Train will return to Calgary leaving Lacombe at 6:00 a.m.

There will be Kamerton Hotel on the train to the Lacombe and W. C. Mackenzie branches
The special trip from Calgary will be in the morning at 10:00 a.m. and 1:00 p.m.

For particulars respecting time schedule and fare, see posters at station
bring lunch boxes. Hot water supplied free of charge at Farm.

M. A. CRAIG, Superintendent of Parks and Institutes

THE BASIS OF A GOOD SHOE

THE BASIS OF A GOOD SHOE is in good reliable material
and Workmanship. The best leather alone won't answer.
Every step from the shaping of the last to the soleing of the
shoe itself must be done by skilled specialists. There is no guess
work about it — no mere approximation to correctness — but ex-
actly the right thing done in every part.

Even the quality of the thread and the number of the stitches
are important.

Even to the very last and minutest detail, "INVICTUS"
SHOES are built upon the basis of reliable material and thor-
ough workmanship.
